Brothers and Sisters,

While we are here in Geneva for the International Labor Conference, our governments are also meeting in New York City to negotiate the UN Global Compact on Safe, Orderly and Regular Migration (GCM). The GCM represents a historic opportunity to create a global commitment to fair migration, regularization and coherent, rights-based policies. Workers and trade unions are setting the bar high. We will only accept a Compact that reflects our core demands.

Key Labor demands for the GCM:
• **Labor Standards** – The GCM’s guiding principles must explicitly mention ILO international labor standards.

• **Decent Work** – There must be a discrete objective in the GCM affirming States’ commitment to support decent work for all, regardless of immigration status.

• **Social Dialogue** – The implementation section of the GCM must name ILO as a core agency with the lead role on labor migration policy, and commit to promoting social dialogue.
Here’s what you can do to help:

- Wear your No GCM without Decent Work for All button with pride and explain why when people ask you.

- Stand up for the group photo to show governments at the UN that workers of the world are serious, and we are united.

- Share Labor’s demands for the GCM with your government delegation.

- Get your government and business representatives to wear a button and take a photo together, then tweet it with the hashtags #NoGCMwithoutDecentWork and #GlobalCompactMigration to:
  - @ITUC, @CGU @your global union
  - UN Special Representative on Migration, Louise Arbor (@SRSRSG)
  - GCM Co-facilitators from Mexico and Switzerland (@JJGomezCamacho and @jurglauber)
  - Your country’s UN delegation

- Join our action at 8:00am on Thursday, June 7 at the Broken Chair to make clear that we will not let what’s happening in NYC threaten a century of ILO engagement!

Solidarity works, and your small actions can make a world of difference!
Please stand with us to demand Decent Work for All in the GCM.
